

2017 Canby Coin Challenge

Code Sheet / Redemption Form

Welcome Geocachers to Canby's 2017 Coin Challenge brought to you by Oregon's Mt. Hood Territory and the Canby Area Chamber of Commerce. This coin highlights Oregon Wine Country with Mt. Hood as a backdrop. It's a pretty snazzy design if we say so ourselves and there are two metal colors to choose from – black nickel or antique copper. There are a total of 400 coins; 200 of each color. Big thanks to AmyGems for setting up this challenge and to the cachers who let us borrow their sites.

Instructions:

1. Locate the Canby Coin Challenge caches.
2. Log the caches.
3. Write the code word found in each cache container next to the corresponding GC#
4. In the event that a cache is missing, or you are unable to physically access a cache, up to three (3) non-challenge local area caches may be substituted. Write the GC # of the substitute cache(s) in place of the code word.
5. After you've completed the challenge fill out the information below and redeem to claim your coin.
