

1

*TAG US IN

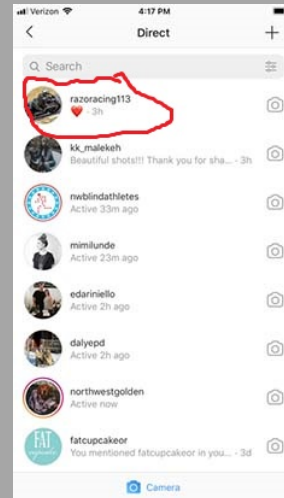

Why you need to tag us in your Instagram Stories?

We'll get an alert in our Direct Messages or DM's. (See the icon in top right corner)

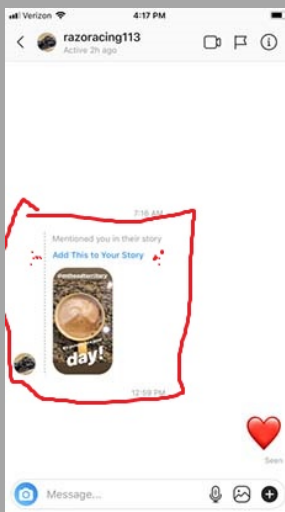

2

YOUR STORIES*

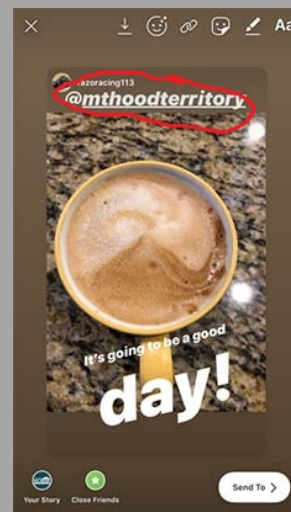

It will be at the top of the list for us to see

3

There will be an option as seen here to "Add This to Your Story" allowing us to tap that and have it upload to our Instagram Stories

4

This is what it then looks like on our Instagram Stories.

****You DO need to tag us in your Story in order for us to be able to re-share it in our Stories. However, you do not need to tag us as large as this particular Instagram handle tagged us. It can be as small as you want it, even barely visible and in a corner if you prefer. *It's only needed so that we can re-share.**
